

SCHOOL PERFORMANCE DATA 2024

1. School Profile

St Joseph's Catholic Primary School is a double stream, co-educational school, catering for 512 students from Pre Kindergarten to Year 6. The school also operates a before and after school care. In mid, 2011 a total rebuild of the St Joseph's School was completed. The new school buildings offer the students modern and outstanding facilities. The design of the new school provides extensive play areas that are safe and easily supervised. Each classroom is set up to optimise learning with shared breakout teaching space, 'Hear and Learn' sound systems and IT equipment.

While numeracy and literacy remain the school's focus, students have a broad range of experiences in all learning areas. The school has an extension program, a comprehensive sports program including numerous interschool opportunities, a swim team, involvement in the St Norbert's Music Program, performance choirs and upper school dance program. The school has specialist teachers in the areas of Performing Arts, Science, Visual Arts, Physical Education, Library and Italian.

St Joseph's School was established in 1915 by the Mercy Order of Sisters and many of their foundation principles underpin the traditions of the school. One of these traditions is the care and concern for each and every individual of the St Joseph's Community; student, staff and parents. The school has a social worker, part time, who offers support to children or families experiencing difficulty. The school also runs the Rainbows program for children experiencing grief or loss. Gospel values of truth, justice, endurance, dignity, charity, peace and compassion remain central to our teachings and practices.

6. Parent, Teacher and Student Satisfaction.

In 2022 parents, staff and students completed the comprehensive NSIT Survey was carried out involving staff, students and parents. The feedback from this survey indicated a high degree of satisfaction with the school. In 2023 the P & F continued to raise engagement levels of the community and supported many community events such as Father's Day Breakfast.

Through the survey parents commented positively on;

- Classroom behaviour and behaviour management.
- Student safety.
- Learning focus.
- School improvement and
- Extra-curricular activities.

Students commented positively on;

- Connectedness to school.
- Student motivation.
- Connectedness to peers.
- Student morale and
- Student safety.

Places continue to be eagerly sought at the school and applications remain high with over 350 applications on the waitlist. Parents and children indicate a high degree of satisfaction for the care and concern that the staff show for the children. The school has a positive relationship with the parish and children generally indicate that the school is a happy safe place to attend.

9. School Improvement Plan. Our main academic focus in 202 was to continue to improve comprehension levels throughout the school. At St Joseph's we have many students who have English as a second language so comprehension can be increasingly challenging. Termly running records and IPI assessments are completed to track students improvement or otherwise. These assessments are showing positive growth for students and have led to healthy discussions why students have stagnated in their progression. This initiative will continue in future years to create valid longitudinal data. It was pleasing to see our NAPLAN comprehension data being above the national average. Another SIP goal was to coordinate this information so it was easy to track growth or otherwise of students. Staff used Making Jesus Real (MJR) and sacred silence as our focus in 2023. Students became more settled and were better able to think of others as sacred silence was used more regularly. Our Learning Environments were a focus and with support from Peter Lippman constructed classrooms to maximise indoor and outdoor space. Will continue this journey. The school purchased 65 iPads and 25 keyboards to continue the process of embedding technologies in all Learning Areas and to improve technology skills. Numeracy was a focus and we focussed on the strategy of Number Talks and Launch, Explore and Summarise which was implemented well but needs to be embedded in 2024.
